Experience

Market Research and Administrative Support Assistant

Memorial University of Newfoundland, Research Innovation Office

St. John's, NL

Jun. 2026 – Present

- Conducted market research, IP valuation, and customer discovery for university-developed technologies while handling sensitive and confidential information.
- Prepared reports summarizing market opportunities, competing solutions, commercialization potential, and prospective customers or industry partners.
- Supported office operations through data entry, document review, records management, vendor sourcing, and general administrative assistance.

Sales Representative

Charm Diamond Centres

St. John's, NL

Jan. 2023 – Jul. 2023

- Met sales targets by identifying customer needs, recommending suitable products, and clearly communicating product features, quality, and value.
- Built positive customer relationships, answered questions, and supported purchasing decisions through personalized service and strong product knowledge.
- Maintained showroom organization and collaborated with team members to support store operations and deliver a positive customer experience.

Technical Operations & Website Support

Gimbal House

Hyderabad, India

Feb. 2020 – Apr. 2022

- Maintained and updated the company website to support business visibility and customer communication.
- Prepared, tested, and troubleshooted equipment before dispatch, supporting reliable day-to-day operations.

Projects

Fraud Alert and Compliance Case Management System | Next.js, Node.js, TypeScript, PostgreSQL, AWS

- Built a full-stack fraud monitoring and compliance prototype featuring transaction reviews, suspicious activity alerts, risk scoring, and case management workflows.
- Developed a Node.js and TypeScript REST API with JWT authentication, Prisma ORM, and PostgreSQL models for users, transactions, alerts, cases, and evidence notes.
- Deployed the backend using AWS Elastic Beanstalk and Amazon RDS for PostgreSQL and built a Next.js frontend deployed on Vercel.

MedQueue | React, Node.js, Express.js, MongoDB

- Developed a full-stack healthcare queue-management prototype designed to organize patient flow and improve visibility into service queues.
- Built a responsive React interface connected to a Node.js and Express.js backend, using MongoDB to store and manage application data.

Additional Experience

Volunteer Assistant

Blue Cross Hyderabad, Animal Birth Control Centre

Hyderabad, India

2020 – 2021

- Supported data entry and field assistance for animal care operations while helping maintain organized records.

Radio Jockey

Narayana Group of Schools

Hyderabad, India

2016 – 2019

- Hosted school radio segments and announcements, strengthening communication, confidence, and public-speaking skills.
