Experience

Social Media and Website Coordinator St. John's, NL

Memorial University of Newfoundland, Secularism on the Move *Sept. 2026 – Present*

- Support and update the project's bilingual website and social media channels to promote research activities, events, and project updates.
- Create and coordinate digital content for web and social media, ensuring information is clear, accurate, and consistent across platforms.
- Support online event promotion and collaborate with members of a national research team on digital outreach and project visibility.

Sales Representative St. John's, NL

Crescent Gold & Diamond Centres *Sept. 2026 – Present*

- Met sales targets by identifying customer needs, recommending suitable products, and clearly communicating product features, quality, and value.
- Built positive customer relationships, answered questions, and supported purchasing decisions through personalized service and strong product knowledge.
- Maintained showroom organization and collaborated with team members to support store operations and deliver a positive customer experience.

Market Research and Administrative Support Assistant St. John's, NL

Memorial University of Newfoundland, Research Innovation Office *Jun. 2026 – Aug. 2026*

- Conducted market research, IP valuation, and customer discovery for university-developed technologies while handling sensitive and confidential information.
- Prepared reports summarizing market opportunities, competing solutions, commercialization potential, and prospective customers or industry partners.
- Supported office operations through data entry, document review, records management, vendor sourcing, and general administrative assistance.

Projects

MedQueue | *React, Node.js, Express.js, MongoDB*

- Developed a full-stack healthcare queue-management prototype designed to improve patient flow, organize service queues, and give users clearer visibility into queue status and overall workflow.
- Built a responsive React frontend and connected it to a Node.js and Express.js backend to manage application logic, user interactions, and communication between the client and server.
- Used MongoDB to store and manage queue-related data, supporting reliable data handling while creating a scalable foundation for future scheduling, workflow, and service-management features.

Additional Experience

Volunteer Assistant Hyderabad, India

Blue Cross Hyderabad, Animal Birth Control Centre *2020 – 2021*

- Supported data entry and field assistance for animal care operations while helping maintain organized records.

Radio Jockey Hyderabad, India

Narayana Group of Schools *2016 – 2019*

- Hosted school radio segments and announcements, strengthening communication, confidence, and public-speaking skills.
